## **FXP** BY TURBO Propeller

Engineered for total performance with super high output four stroke outboards

Precision Propeller Industries, Inc. has launched the new high-performance FXP propeller from Turbo®. Engineered to deliver great overall performance at tournament load, it's intended specifically for today's high-performance, high-output four-stroke bass boat outboards. It also works well with these outboards in selected bay and flats boats applications.

The new Turbo® FXP delivers outstanding results along all measures of propeller performance – hole shot, acceleration, top speed and handling – rather than focus on one or two performance attributes like some competitors. High performance four stroke outboards have different propeller needs than their two-stroke predecessors, and the FXP is the first propeller specifically designed to address all performance criteria in applications using these special outboards.

- ▶ **Better by Design** | Ventless – purpose built explicitly for today's super high output four stroke outboards.
- ▶ **Fast** | Advanced 14 3/4" diameter, three blade design allows for high engine mounting heights for maximum speed, "grip", and application flexibility.
- ▶ **Increased Lift** | More overall boat lift than many other propellers for added performance, handling, and minimal bow rise at hole shot.
- ▶ **Tournament-ready** | Outstanding hole shot, top speed, and overall performance even at tournament loads, when propellers typically work their hardest.
- ▶ **Custom Performance** | Available in 22", 23", 24", 25", 26", and 27" pitch for customized performance, right out of the box.
- ▶ **Reduce Fatigue** | Specific design advancements means less steering torque for less operator fatigue.
- ▶ **Easy Installation** | Guardian SQ-LOK hub system means it can be adapted to nearly any appropriate outboard. It can also utilize other brands of universal (square) hubs.
- ▶ **Wide Availability** | Available at over 2000 independent Yamaha Marine dealers nationwide.

**Gear Case Size** | 4.75" (Yamaha "M" or "T")  
**Diameter** | 14 3/4"  
**Blades** | 3  
**Pitches** | 22"~27" (full inch sizes)  
**MSRP** | See Independent Yamaha Marine Dealer

### AVAILABLE FXP MODELS

Description	Yamaha Part #
FXP 14 3/4 X 22 R	MAR-14722-R0-00
FXP 14 3/4 X 23 R	MAR-14723-R0-00
FXP 14 3/4 X 24 R	MAR-14724-R0-00
FXP 14 3/4 X 25 R	MAR-14725-R0-00
FXP 14 3/4 X 26 R	MAR-14726-R0-00
FXP 14 3/4 X 27 R	MAR-14727-R0-00
